ABOUT

PC Chimp was established in 2010 with an objective to provide products and services in the area of networking. The company places greater emphasis in understanding the customer needs, budget and resources. This enables us to provide a cost effective design towards developing networks of any size.

Services offered

- ◆ **IT Infrastructure**
- ◆ **IT Support**
- ◆ **IT Distribution**
- ◆ **IoT And Automation**

ACHIEVEMENTS

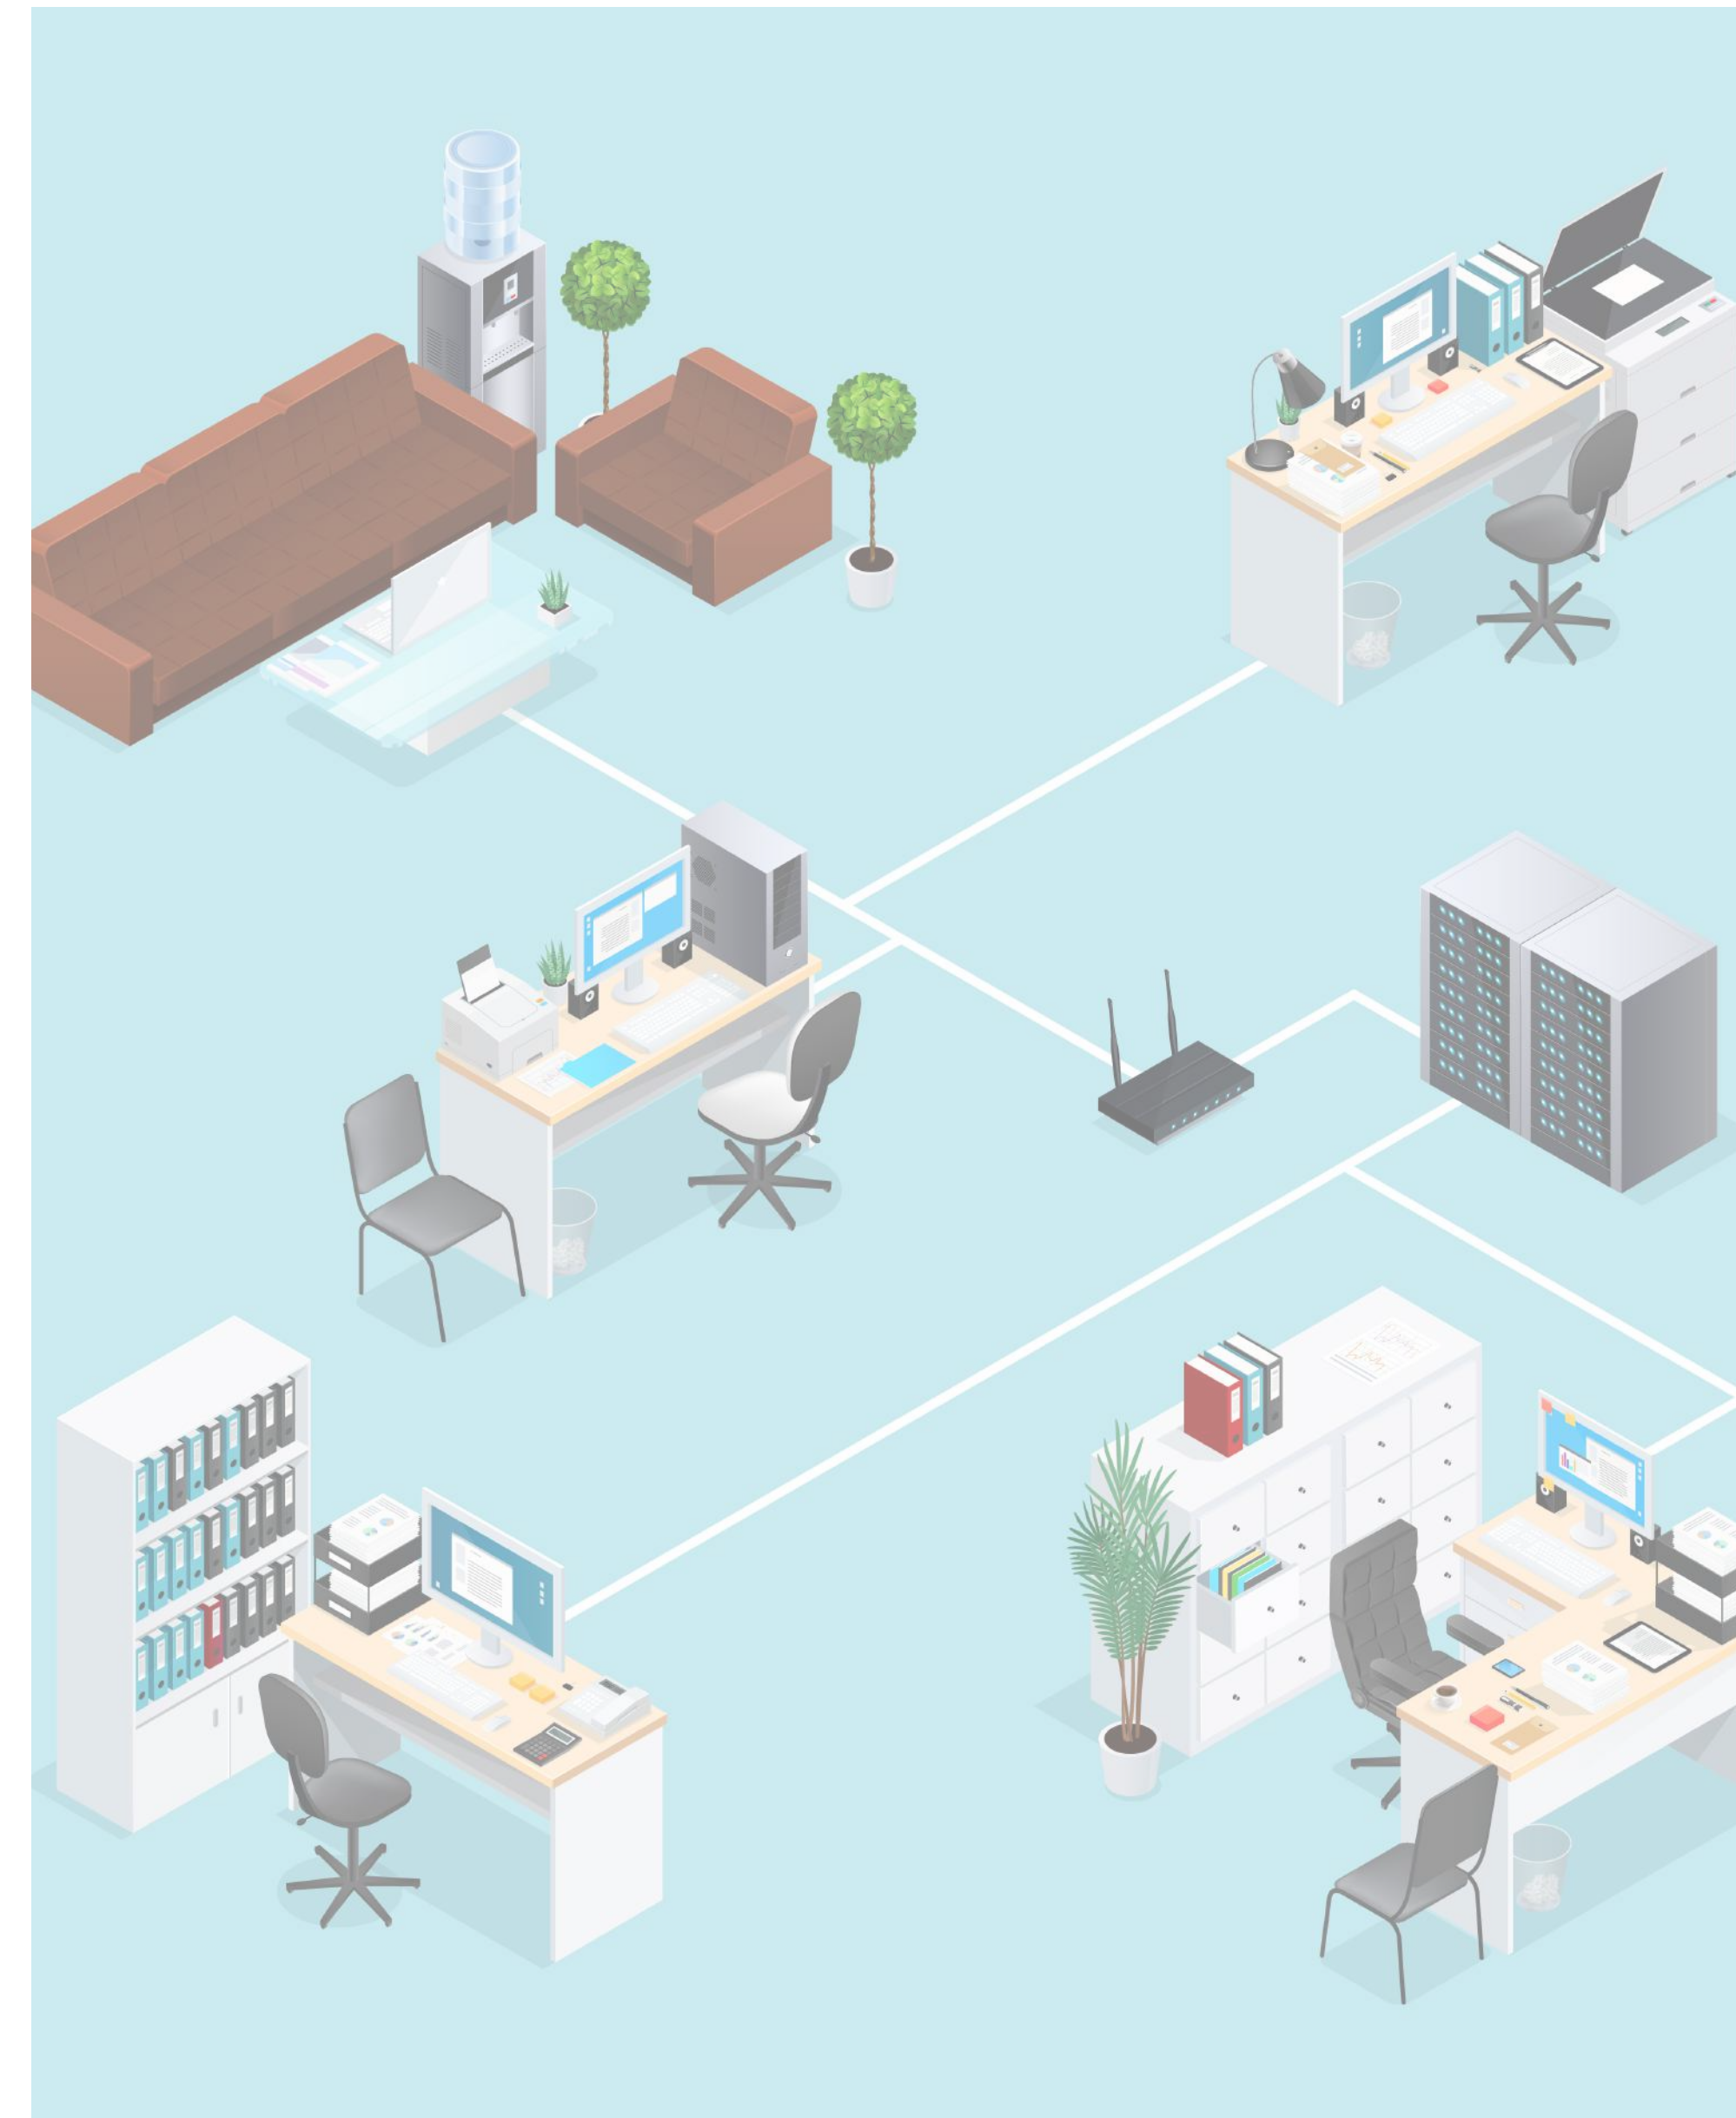

- ◆ Award for best TAT in India as a support partner from Acer, a leading PC manufacturer.
- ◆ Recognition for best performance in a quarter from Molex, a leading networking company.
- ◆ Successfully managed logistics and support for over 1.6 million devices to over 4000 locations.
- ◆ Completed the networking for Apollo hospitals, a leading health care company well before deadline.

IT INFRASTRUCTURE

Our IT Infrastructure Service covers the full extent of enterprise network convergence, including:

- ◆ **NETWORK DESIGN**
- ◆ **STRUCTURED CABLING - VOICE & DATA**
- ◆ **ROUTING, SWITCHING & SECURITY**
- ◆ **WIRELESS NETWORK**
- ◆ **SECURITY SURVEILLANCE**

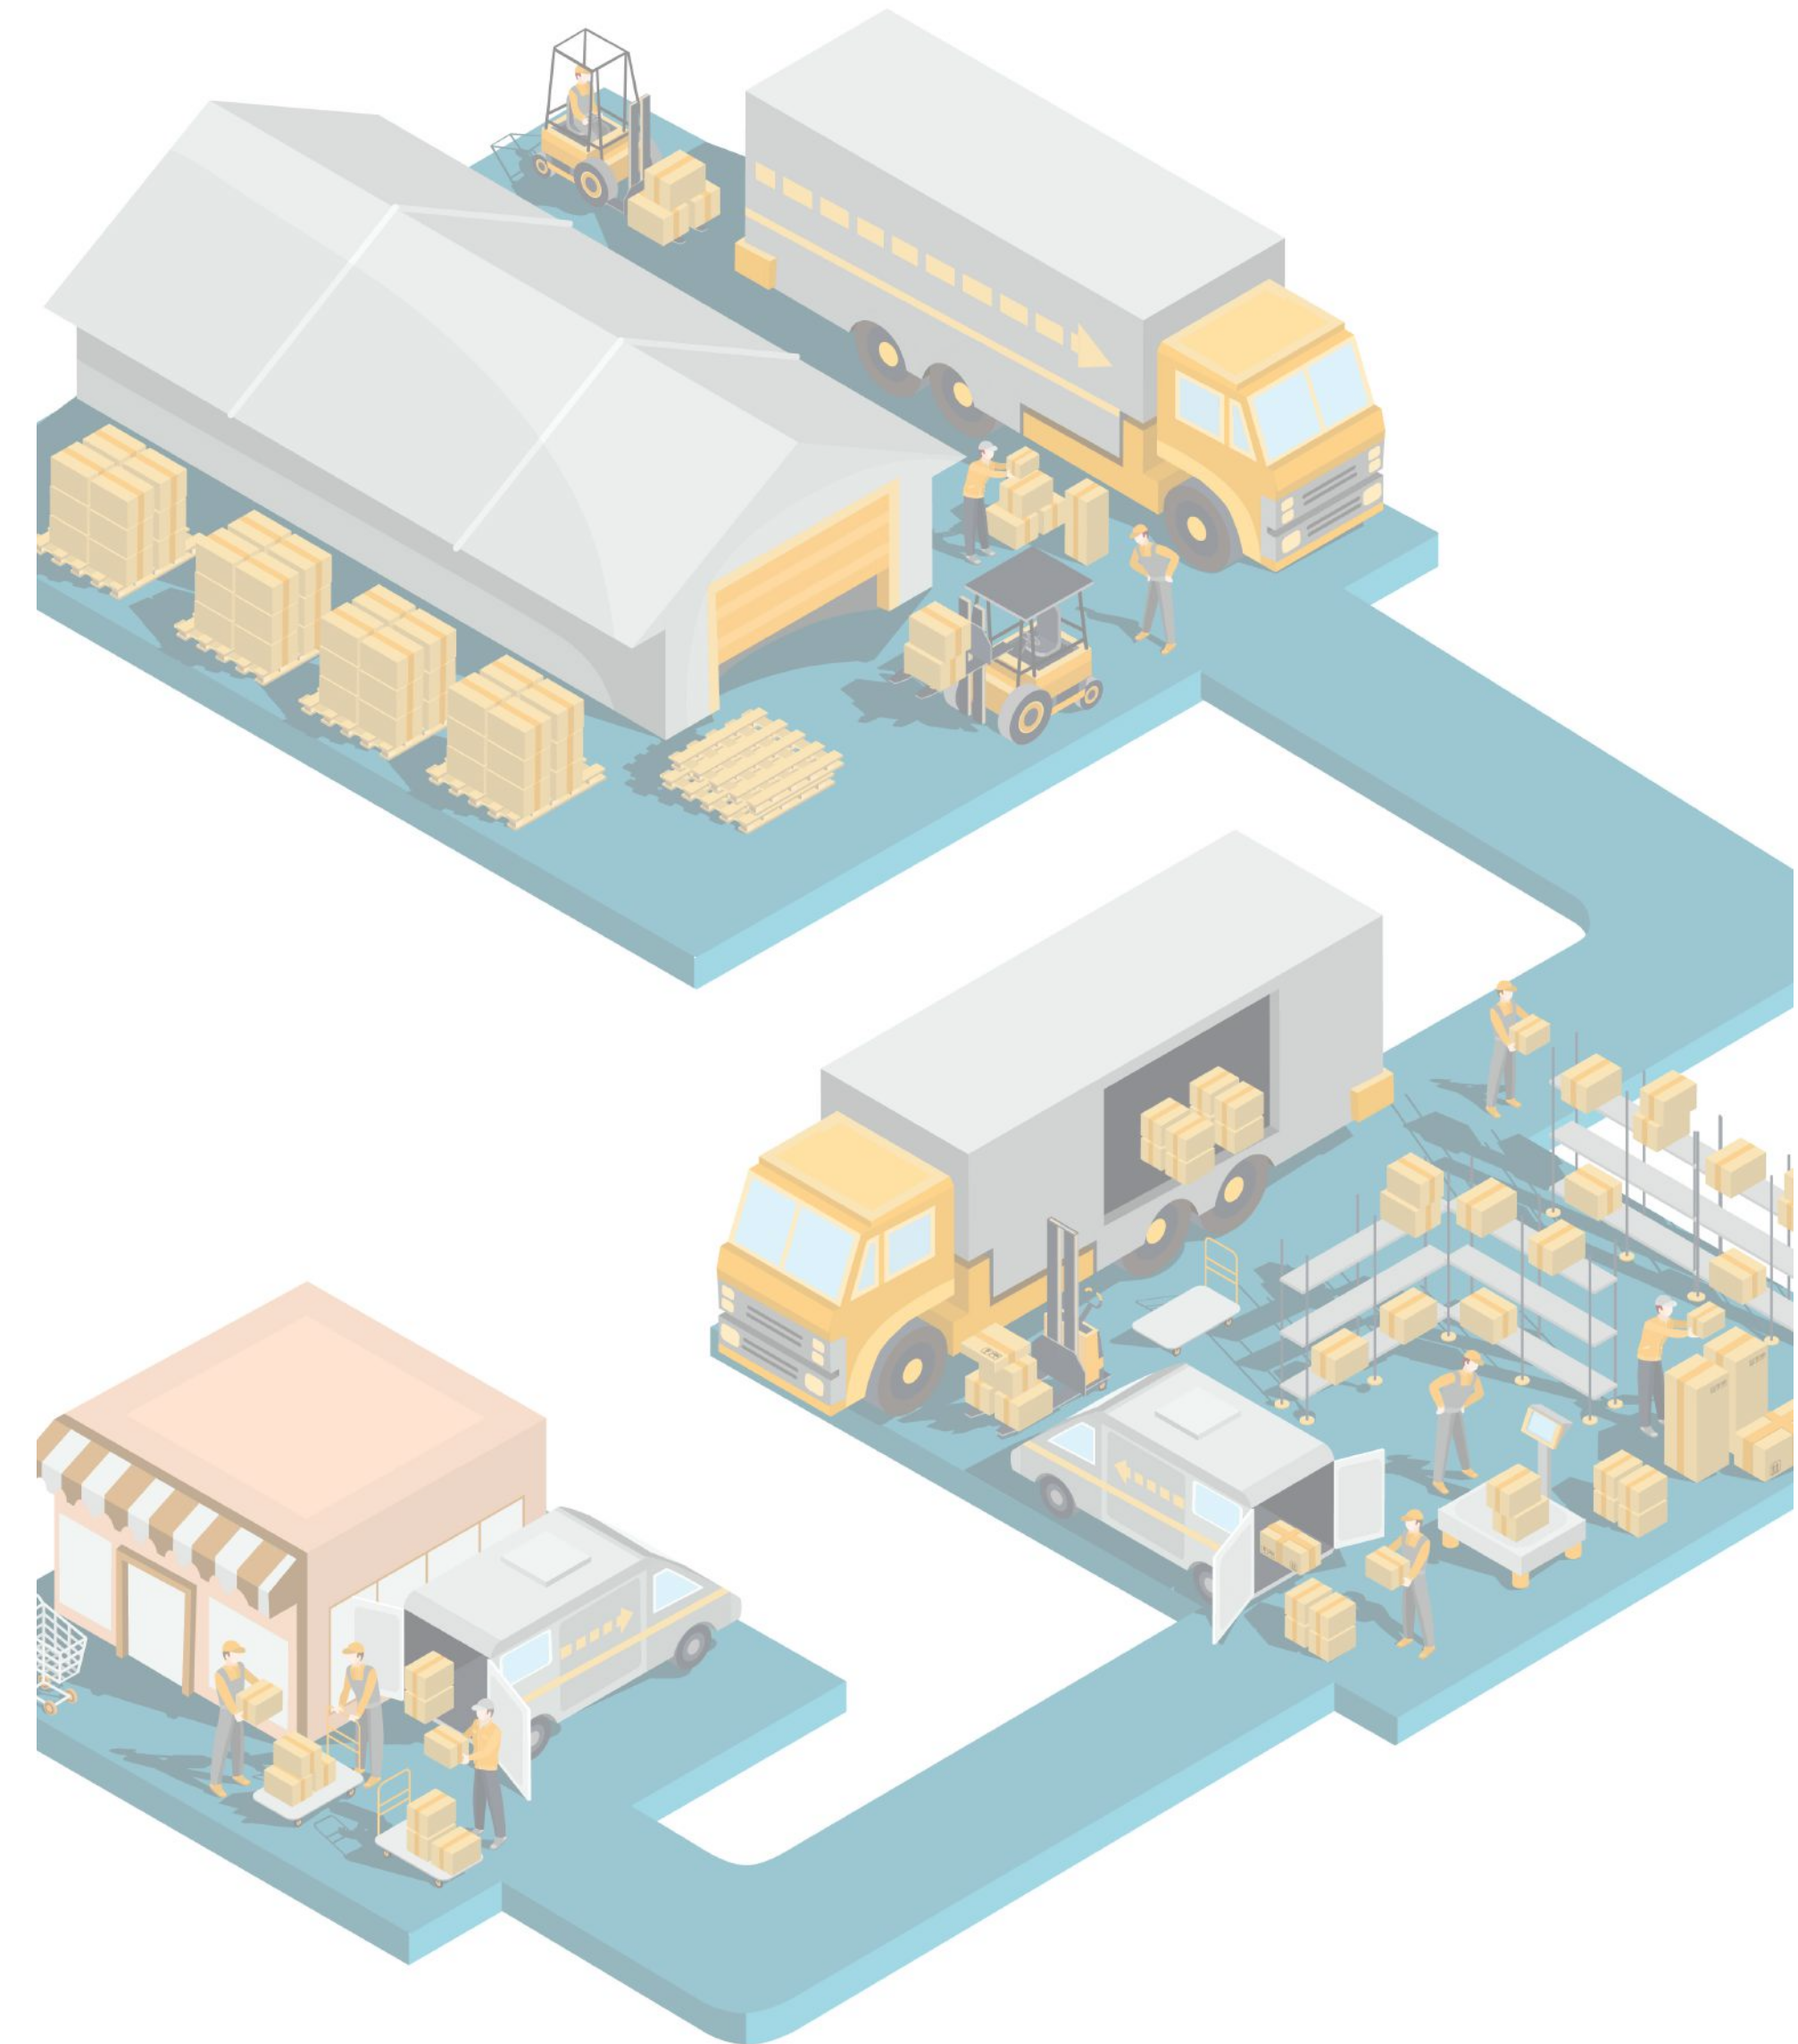

We work with our clients throughout the project lifecycle, from network designing, planning cable routes, generate BoM, pricing within budget, plan racking, executing within deadlines, testing & certification and documentation.

IT DISTRIBUTION

PC Chimp is a distributor for some of the major IT products namely Molex, Aten, Allied Telesis, Aution, Checkpoint, Greeniee amongst others.

Our distribution ecosystem for IT products plays a significant role in providing better pricing for our IT Infrastructure customers than our competition.

IT SUPPORT

We advise, guide, implement, support and continuously review your IT platforms. Our proven IT Roadmap services ensure we have a plan to get your organisation to its intended destination whilst ensuring all of the usual IT Support Services you'd expect from an established IT Support company are in place.

Services offered

- ◆ **In / Out Warranty Services**
- ◆ **Virtual CTO**
- ◆ **IT BCP**
- ◆ **IT FMS**

PC Chimp has a network of over 100 centres across Tamil Nadu, proficient in providing multi vendor In or Out of warranty services for PC and peripherals.

IoT and Automation

GREENIEE

Greeniee is an Energy Monitoring and Management Solution that offers real-time insight into energy consumption at a connected premise. In addition to identifying wastage points and reducing energy expenses, it also helps in predictive maintenance of electrical equipment.

AUTION

Low cost wireless remote monitoring IoT sensors. Range includes Temperature Sensor, Humidity Sensor, Water Sensor, Air Quality Sensor, Motion Sensor, Vibration Sensor, Luminance Sensor, Weight Sensor, Load Sensor. All of Aution's remote monitoring sensors can be setup in 30 minutes and the intuitive interface makes managing your system a snap!

IOT

Aution
automation. made simple.

OUR PROCESS

DESIGN

PC Chimp engineers apply a well-defined methodology to come up with a comprehensive network design keeping in mind the clients requirements

EXECUTION

The next step is bringing the design alive and to transform the design into reality using best practices.

MANAGEMENT

PC Chimp uses project management tools to monitor and track progress of the work and proactively interacts with the clients to complete within deadlines.

DOCUMENTATION

Document the entire work from design to handover including testing and certification if any is required to the client.

OUR ADVANTAGES

PEOPLE

PC Chimp engineers have years of combined experience in design, implementation, project management and support skills.

COMMITMENT

Our unwavering commitment towards achieving our clients goal is paramount to us.

PROACTIVE

Any project will run into issues, at PC Chimp we proactively address the issues and keep our client informed at all times. We provide escalation matrix for our clients.

KNOWLEDGE TRANSFER

Complete knowledge transfer is done with the clients point of contact enabling the client to run their network without hassles.

PARTNERS

End to End Structured Cabling Solution

KVM Switches, PDU/UPS/Racks

Network Switches, No Compromise Wi-Fi

SMB Security Firewalls

IoT Energy Monitoring & Management

Low cost wireless remote monitoring
IoT sensors

PROJECTS

NAVI MUMBAI

Supply and Implementation of IT Networking, Structured Cabling and Server Room setup for this seven floor hospital at Navi Mumbai, India.

Tamil Nadu

Warranty Support Services for over 1.6 million pc's covering over 4000 locations in Tamil Nadu, India.

**Hutchinson
Networks**

Hutchinson

Migration, Installation, Backup & restore of 600+ PC's.

**Alcatel-Lucent
Enterprise**

Mumbai

Team of 160 engineers deployed for installation and maintenance of telecom towers across north india.
